Water-Soluble Silicon UMO®

“INOCHI-NO MOTO®”

50ml **4,000yen** (sales tax not included)

500ml **20,000yen** (sales tax not included)

There is the case that you may see crystals float and precipitate in solution. Rest assured that these are the ionized and crystallized minerals.

Legal Name : Water-Soluble Silicon Containing Food
Raw Material : Water-Soluble Silicon Concentration
Solution Extracted From Crystal
Storage Precaution : Avoid high temperature, high humidity and direct sunlight

Nutrition Information (per 100ml)

Calories	2 kcal	Silicon	8,000~9,500ppm
Protein	Less than 0.1g	Iron	0.44mg
Fat	Less than 0.1g	Magnesium	0.1mg
Carbonhydrate	0.4g	Manganese	0.01mg
Sodium	587mg	Lithium	0.2ppm
		Phosphorus	28.6mg

Made in Japan

100% domestic raw materials

INOCHI-NO MOTO® is the concentrated solution made by dissolving water-soluble crystal obtained by burning 99% pure silica (crystal quartz) at 2,000 Celsius, vaporizing it and extracting only most valuable ingredients.

Consumption of Silicon

General adults need approximately 10~40mg silicon per day.

Silicon is much included in bones, joints, blood vessels, skin, hair, and nails. Since we humans cannot produce silicon by ourselves in the body, it is necessary to make up for it with supplements.

Micro-Mineral

Silicon is one of the essential minerals

Quite a few amount of 18g silicon are detected in the body and distributed over the entire body such as internal organs, skin, and skeleton.

- Water-Soluble Silicon UMO® “INOCHI-NO MOTO®” is the solution made by ionizing 6 minerals including silicon extracted from crystal.
- Please enjoy “INOCHI-NO MOTO®” as food playing precious role in your body.
- Our bodies are made up of what we eat. Food high in fiber such as seaweeds, beans and cereal grains contains rich silicon, so it is recommended that we eat them with every meal. However, it is difficult to keep on having ideal diets every day. That is exactly the problem we are facing these days.

Anti-Oxidative Potency and Safety of Silicon

【A simple experiment on the anti-oxidative potency of silicon】

There are two containers. Each container contains nails in. Pour 100% tap water into one container and mixed water of 90% tap water plus 10% “INOCHI-NO MOTO®” into the other. The nails of container containing “INOCHI-NO MOTO®” have never gotten rusted even if they remain left for long time. (Images 7 years later)

100% tap water

90% tap water plus 10%

“INOCHI-NO MOTO®”

【Safety of Silicon】

Silicon is different from many other health foods because body kinetics has analyzed and it is confirmed that silicon is non-genotoxic. That ensures that silicon is safe food ingredients. When we take in silicon as food, serum silicon concentration begins to rise instantly and peaks in 120 minutes and then gradually decreases. (Reference: Ravin Jugdaohsingh et al, Am J Clin Nutr 2002)

“INOCHI-NO MOTO®” Make Healthy Blood Vessels and Your Life Healthier!

Essential nutrients for the body are carried through blood vessels that stretch over 100,000 kilometers throughout the body. Blood capillaries account for 99% of all blood vessels (5μm in diameter). If endothelial cells making up blood vessels are all broadened out, it is equal to an area of 7,000 square meters (covering 27 tennis courts). The diameter of a blood capillary is approximately 5μm. As the thickness of a human hair is about 0.08mm (=80μm), it is important to have elastic and healthy blood vessels.

Blood capillary is approx. 5μm in diameter.
(Human hair is 0.08mm=80μm on average.)

“The Power of Silicon” published by Cosmo21)

Silicon is a Gift for Our Planet

Silicon, which is the largest number element next after oxygen (about 50%) in all elements on the earth, exists much under the earth crust. It accounts for approximately 27% of all elements. However, silicon doesn't exist by itself such as gold or silver despite such a large amount. One of the reasons is that silicon is much likely to be as a compound with various kinds of elements. For instance, SiO₂; silicon is combined with oxygen, is well-known as a chemical compound. Water-Soluble Silicon UMO® “INOCHI-NO MOTO®” is obtained by ionizing 6 minerals. Enjoy our “INOCHI-NO MOTO®” as food working wonderfully and effectively in your body.
